Financial Policy

In order to keep our fees affordable and reduce costly billing procedures, we require payment at the time of service unless other arrangements are made in advance. This means that you are responsible for all fees incurred and that if you have insurance coverage, you will be asked to pay any deductible and co-payment due at the time of service.

We accept cash, check, and major credit cards.

For senior citizens we offer a 10% discount.

Major Treatment

For major cases, a down payment of approximately one half of your responsibility is required at the beginning of treatment. The balance is due at completion unless other arrangements are made before treatment begins.

Financing options on large cases are available by Capital One's Dental Fee plan.

Insurance

For your convenience, we will submit your insurance claims for you. It is important that you provide us with the necessary insurance information and inform us of any changes as they occur.

There is great variation in dental plans coverage. We can only estimate what your coverage will be as a courtesy to you. In any event where your insurance company pays less than the amount expected, you are responsible for the balance. If you have questions concerning your coverage it is best to consult with your insurance company directly or your company's benefits manager.
